### An Important Sale,

Bills are out announcing a public ale at the old Wiggins farm just west of Jonas Benfield's place, of a fine lot of horses, cattle, hogs, imple ments, etc: the property of C. J. and G. E. Peck. The sale will be held one week from to-day, March 16th, and C. Post and W. R. Geis will act as auctioneers. A credit of 8 months time will be given at 6 per cent, interest, on sums over \$10.00. There will be sold 15 head of horses and mules; 50 head of cattle, among which are some fine milch cows, 10 three year old steers, 15 two year old steers, and 10 yearling steers, 35 head of hogs are to be sold, besides a fine lot of farming implements. This is one of the best sales this spring, and some fine stock will be offered.

TILL IMPROVING Paper Mill to Be Enlarged and Its Capacity Doubled.

Mr. Peterson, the genial secretary of the Salina Paper Manufacturing company is authority for the information that his company will greatly enlarge their already complete paper mill this spring, so as to increase the capacity of the mill. It is about the same thing to Salina as a new paper Mill, as a three story building will be erected, another paper machine put in, fine globe bleschers 14x14 feet, holding sbout seven tons of straw, will take the place of the open vats they now use, and three more beaters will be added, in all the improvements will amount to about \$50,000 The change the time of her death, and could not is made so that two grades of paper can be made without stopping to change the entire machinery, as is had been married but about two in use. The capacity will be greater, and much time saved that has heretofore been consumed in changing the machine to manufacture the different grades of paper demanded by their trade. This is one of the largest mills in the west, and when the contemplated improvements are made Salina's paper mills will be her

### M. Solomon Dead.

Death came very suddenly Monday evening to M. Solomon. He had been attending to business all day as usual, and about 5 o'clock, left his office and went up town. He got shaved about 4 o'clock, and was in his usual health apparently. After supper while sitting in his office he complained of feeling unwell, and was advised by a friend to consult a doctor which he promised to do. He filled his pipe for an evening smoke, sat down in his chair, and without a murmur fell backward and died. About two weeks ago be had a sinking spell, but rallied, and complained but tittle of feeling unwell since. He has been in Salina for about eight years, and was known as the Texas grain man. His brother in Texas was notified, and arrived yesterday. His funeral will occur to-day, and he will be buried in Salina. He owned the feed mill in the rear of his grain office, and an 80 acre tract of land northwest of the

charge of the train. Butter, Eggs and Poultry. it is surprising to notice the amount of money that goes out every month to the farmers of Saline County for butter, eggs and poultry. Last month the firm of Findley & Co. paid out over \$11 000 for these products of the farm, over one-half of which went directly to the farmers of this county alone. It is shipped to New York and eastern markets, and the fact that such firms are always here with plenty of money to pay for all the produce that can be brought here for sale, is stimulating to the producers to pay more attention to these profitable lines. Salina is becoming a great market point, and is as good to-day as Kansas City or any Missouri river point. Findley & Co's., business at Salina is under the direct management of Mr. A. T. Hawkins, who is an experience produce man, and is pushing the business as fast as possible. se Well as Draft Borses. Among the most prominent breed ers of horses in the west is our towns man Mr. A. E. Rausom proprietor of the "Smoky Hill" stock farm located nine miles north of this city. Ten years ago he realized the importance improving the horse stock of Western Kansas and while on a trip at their program on February 22

back to Ohio, he purchased and brought to Salina the standard bred stallion "Brunswick Chief" 16401 whose first colt, Blonde, bred by Mr. L. F. Parsons of this county secured a record of 2.21 in 1892. In 1887 feeling that an outcross for the fillies a slight lump. by Brunswick Chief was needed, he went to Kentucky and purchased "Johannes" 5158 and "Broadwell" 6681, both sons of the great "Princeps" 536, sire of thirty seven trotters the case while only one machine is with records from 2.14 to 2.40, and and of which our Professor Roach is both out of daughters of the equally justly proud. great "Volunteer" 55, sire of thirty three with records from 2.11 1/4 to 2 30. Realizing the demand that the publie is making for developed speed combined with fashionable breeding, and perfect individuality, he disposed of all his stallions except one (A Wilkes) and last fall went East again, purchased and brought back 'Mambrino Medium'' 5595, race record 2.2814. This horse is eight years old this spring, and besides being a first class individual he is ored in the purple, being sired by Happy Medium 400, sire of the peerless "Nancy Hanks" 2.04, and eighty two others with records from 2.10% to 2.30. His dam is a producing daughter of Mambrino Champion 5130, sire of Molty Long 2.294, etc., and he by Mambrino Chief 11, sire of Lady Thorne 2.1814. His second dam is by Alexanders Norman 25, sire of Lula 2 15, and others. A tabulated pedigree of Mambrino Medium can be had upon application, and every cross in his veins will show they are speed producing. He will go into active training July 1st

and Mr. Ransom expects to give him a record right at 2.20. While East Mr. Ransom purchas ed of Cecil Bros., Danville, Ky., the black two year old colt "George Parsons" 17.937, sired by George Willis, 17,777 record 2.2914. when I was e or o years out I had a scrot-glous sore on the middle finger of my left hand, which got so had that the doctors cut the finger of, and later took off more than half my hand. Then the sore broke out on my arm, came out of my neck and face on both sides, nearly destroying the sight of one eye, also on my right arm. Doctors said it was the Worst Case of Scrofula they ever saw. It was elemply awful! Five years ago I began to take Hood's Barsaparilla. Gradually I found that the sores were beginning to beal. I kept on till I had taken ten bottles, sen dellare! Just think of what a return I got for that investment! A theu-emad per cens? Yes, many thousand. For the past 4 years I have had no sores. I
